

HG&E Dig Safe® Activity

State laws require utility companies to mark underground utilities in areas where construction projects are taking place. This activity report is meant to provide customers with a list of HG&E's planned projects that require spray painting and/or flagging the underground utilities in your area.

Please note: HG&E will do our very best to list all of our related projects. Emergency situations will not be listed on this document.

Dig Safe® Color Codes

RED	ELECTRIC
YELLOW	GAS, OIL, STEAM
